# Info Flash

Date : 04/03/2014

Summary:

A new version of **e-file light** will be delivered into production on Friday, March 7th from 7:00 AM to 9:00 AM (**no service interruption is planned)**.

We are improving the functionality of the **Document Management**.

Document Hosting Service (DHS) basket:

You will now be able to see all documents that are currently available on www.fundsquare.net (formerly www.finesti.com) either as they are hosted on DHS level (filed with the authorities) or considered a public document.

For your convenience, filters have been added to the DHS basket. This new feature allows you to see if a document is public or only stored in the DHS basket.

Please note that should you want to remove a "public" document from the website, this can only be done through the "publication" basket. Additionally, documents are now automatically available in the DHS basket after being sent during a UCITS IV Notification.

We are introducing new icons for your better understanding:

A document has been published on Fundsquare.net through the DHS basket.
A document has been published on Fundsquare.net as it is deemed public.

We remain at your disposal should you need any further information.

Best regards

Fundsquare S.A.
