AIFM reporting through AMFine platform enhancement

Date : 05/12/2017
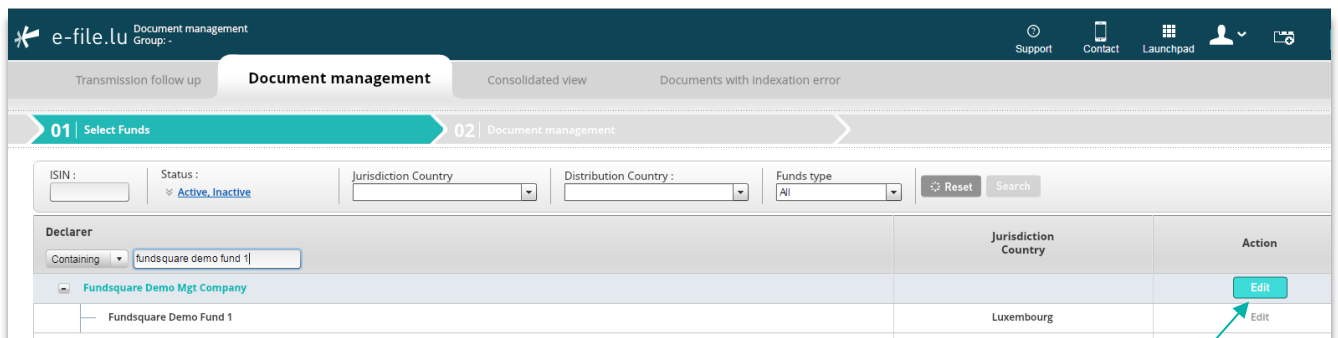

New indexation related to AIFM XML report at e-file v2 level

What is the enhancement?

- All AIFM xml reports transmitted from AMFine platform to e-file V2 will be **automatically** indexed to the respective AIFM in order to avoid documents with error indexation (as so far outlined in our WIKI).

Document Management level

After transmitting your AIFM report from AMFine, you have to edit the AIFM as below to see the concerned report:

Click on Edit to get the xml AIFM report received from AMfine

The rest of the system behavior remains as already known.

Should you need any further information, please contact us..
