

# Info Flash - Release of the new Transmission module

**Date: 11-07-2022**

Dear client,

We are happy to share with you the release of the new Transmission module into production environment.

The redesigned module replaces the existing E-file crypto JAVA application and its main difference is the direct opening in the browser.

This new module **improves** and **facilitates** the e-file user **experience** while keeping the existing essential functionalities.

As from 12/07/2022, we will gradually open the access via the **Report Generation** module. Starting by Security by Security, then S reports and finally O and U CSSF reports, FATCA and CRS.

The new Transmission module will be appearing via this pop-up (on the right of the screen)

The image shows a screenshot of a web application interface. On the left, a form titled 'Zero report' is visible, containing fields for 'AEOI reference', 'Depositor name', and 'Depositor personal identification number'. A warning message at the top of the form states: 'Please be informed that this form is not saved automatically, all datas filled will be lost upon the closure of this form. To save your form use the button "Save locally".' The 'REPORT TRANSMISSION' pop-up window is overlaid on the right side of the screen. It has a teal header and two tabs: 'Transmission' (selected) and 'Configuration'. Under the 'Transmission' tab, there is a section for 'TRANSMISSION SETTINGS' with the following fields: 'Admin. des Contributions Directes' (with a red asterisk and 'Required field' label), 'Title of the sending' (with a red asterisk and 'Required field' label, containing the text 'My filing'), and 'Keystore password' (with a red asterisk and 'Required field' label, containing masked characters and a toggle icon).

For more information about this new module or any other questions you may have, please feel free to revert to your main contact at Fundsquare.
