### Message for all our users still using e-file v1

Date: 13/02/2018

#### **Message for all our user's still using e-file v1**

Dear client,

We would like to inform you about the finalization of our e-file migration.

On Thursday 15 February 2018 at 8:00 am (Lux time), you will be routed to the new landing page of e-file by default as we informed you about this beginning of this year already.

Please see our WIKI page for further details. [[https://www.e-file.lu/wiki/index.php/Efile\\_Migration](https://www.e-file.lu/wiki/index.php/Efile_Migration)]

We keep the old version alive in case you need to return for any reason to the old system temporarily.

The link is provided on the new landing page on the bottom part left side:

> e-file version 1 (previous site)

While we monitor the access on the previous site, please inform us actively should you encounter any difficulties to work with the new website. We are planning to switch off the old site by end of April 2018.
