Dear Clients and Partners,

We are excited to inform you of an upcoming change that will simplify your e-file **KID documents** transmission process to the Commission de Surveillance du Secteur Financier (CSSF) for Luxembourg domiciled funds.

Starting Friday, 1 August 2025, the Sending Service will no longer be required when using the e-file Document Library and scheduled automation. Instead, KID documents will be transmitted directly from e-file to the CSSF's S3 bucket – making the process more streamlined and efficient.

What's changing?

If you currently use the e-file Document Library and scheduled automation to transmit KIDs to the CSSF:

- ✓ KID documents will now be sent directly – they will no longer appear in the Sending Service folder.
- ✓ You'll still receive email confirmations for each successful transmission.
- ✓ No need to maintain the Sending Service for this process anymore.

What stays the same?

You will need to ensure the Sending Service remains up-to-date and operational if:

- You transmit KIDs by manually depositing them directly into the Sending Service, or
- You use the Sending Service for other types of report transmissions in Luxembourg.

Please note: Transmissions performed through the **e-file Transmission Module** are **unaffected** by this change.

Need support?

Our team is here to help. If you have any questions about this update or how it may affect your infrastructure, don't hesitate to reach out.

Kind regards,
FE fundinfo
