

Info Flash

Date: 30/05/2014

Summary:

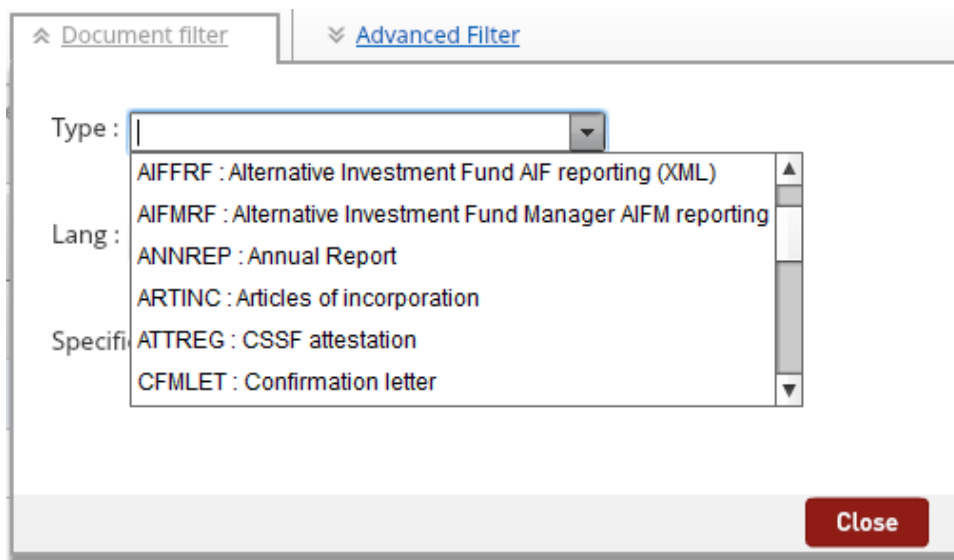

A new version of **e-file light** will be delivered into production on Friday, June 6th from 7:00 AM to 8:00 AM (**no service interruption is planned**).

We are improving the functionality of the **Document Management**.

Document type filter restricted

Due to the new reporting and the increase of the type of documents which can be managed, we decided to set up a **restriction in the document type filter** in order to avoid a document type list too long.

The restriction is **based on which reporting you are able to do**, and also on the basket and the country.

The goal of this restriction is to let you manage only useful documents.

If you drop an unexpected document into a basket, the below **warning will appear**.

Warning ✕

Some documents have a type that is incompatible with the destination basket, if you click on validate these documents will still be transferred to the destination basket.

Filename	Doc type
Warning CPROSP-2014-05-27-BG-AE-2014-05-27	CPROSP

You can still force the deposit, but then the document will **not be visible** in the basket.

We remain at your disposal should you need any further information.

Best regards
